

UNDERGROUNDS MINING BROADCASTING TELEPHONES

An Underground Mining Telephone with flashing lamp & horn, it is fully contained within a corrosion resistant cast aluminium weatherproof case with a door providing complete protection against dust and moisture ingress, resulting in a highly reliable product with a long MTBF.

Equipped with horn and beacon, the horn can broadcast remotely for notification, horn activates after 1-9 rings (adjustable), deactivates when handset lifted or call finished. The LED Red beacon begins to flash when ringing or in use, attracting attention to the phone when call comes, useful in noisy environments.
